Commercial Proposal No. 0001 dated 22.10.2026 | Validity: 1 month

1. About the manufacturer

LLC "MAV" is a Belarusian manufacturer of paint and coating materials since 1993. The production facility is equipped with modern European and Chinese equipment.

The wide range of equipment allows the production of up to 8 types of paint and coating materials: alkyd and alkyd-urethane, acrylic and water-dispersion, epoxy and epoxy-ester, polyurethane, zinc-filled and chemically resistant compositions, powder coatings, aerosol products, in packaging from 210 mg to 1500 kg.

Water-dispersion paint and coating materials plant: Automated DROMONT line for the production of water-based paints, primers and putties. The total capacity of the plant is more than 75 tons per day in 2 shifts.

Production of solvent-based materials: Consists of two production buildings and a packaging workshop. Equipment from leading European and Chinese manufacturers: NETZSCH and VMA-GETZMANN (Germany), PROFARB (Poland), Shanghai Sower Mechanical & Electrical Equipment Co., Ltd. (China), FARFLY FSP series (China). Total production volume is more than 50 tons per day in 2 shifts.

AMIKA production and logistics complex (powder coatings): Automated Coperion line for the production of powder materials (in operation since 2009). Production volume is more than 13 tons per day in 2 shifts.

Aerosol products production: 3 automated filling and bottling lines (launched in 2019, 2021 and 2024), capable of producing more than 8 million aerosols per year (lubricants, cleaners, paint and coating materials, household aerosol products).

Total production volume is more than 16 thousand tons per year.

A quality management system ISO 9001 is in place; the quality control laboratory conducts tests in accordance with STB EN, STB ISO 900, GOST ISO/IEC 17025 standards.

Paint and coating materials produced by LLC "MAV" comply with the Technical Regulation of the Customs Union.

Export regions and countries: Russian Federation, Kazakhstan, Uzbekistan, Georgia.

Foreign partners: BASF (Germany), Dow (USA), Changzhou Ruichixi Chemical Co., Ltd (China), BYK (Germany), Allnex (Germany), Hangzhou Dimacolor IMP&EXP CO., LTD (China), Worlée (Germany), Hoyonn (Hubei) Nanotechnology Industry Co., Ltd (China), Evonik Industries (Germany), Synthopol Chemie (Germany), Huntsman Corporation (USA).

2. About the products

Applications: decorative and protective materials for construction and renovation, wood processing and industry: primers, enamels, varnishes, water-dispersion and facade paints, putties, industrial paint and coating materials.

Target group: importers and distributors of paint and coating materials, construction retail chains, industrial enterprises, construction companies, metal and wood processing enterprises.

Competitive advantages:

Automated production and full cycle at the site in Dzerzhinsk ensure "reliable and affordable quality";

Fast processing of orders and production of orders;

Possibility of installing equipment for tinting materials;

Providing the client with advertising and POS materials;

Adaptation of packaging and technical documentation to the language of the consumer country;

Adaptation of paint and coating materials to storage conditions and operation of painted objects in countries with a hot climate;

Flexible prices and a wide range of products (from economy to super-premium segment).

Color range: The TON-IN-TON tinting system tints a color within minutes according to various catalogs, including well-known ones: RAL, NCS, PANTONE, NOVA MONICOLOR, and own fan decks KOLER, AKVAMAV, PROSPECT, etc.

Wide color range — more than 20 thousand colors.

Terms of sale: Ready to provide product samples (volume up to 1 liter) and their delivery.

3. Delivery terms

Delivery basis (Incoterms-2020): FSA, CPT.

Delivery time: Serbia 60 days; Algéria 60 days; Egypt 60 days.

Storage conditions: from +5 °C for water-dispersion materials, from –20 to +40 °C for solvent-based materials and aerosol products, for powder paints — temperature not higher than 27 °C and relative humidity not more than 75 %.

4. Payment terms

Payment currency: EUR, USD

Payment terms: prepayment for the first deliveries, for subsequent deliveries — as agreed by the parties.

Guarantees and service abroad: warranty obligations for products; consulting support; possibility of a specialist's visit / training of distributors.

Validity of the offer: 1 month

If the proposal is of interest to you, we would be grateful for the contact details you leave (phone or e-mail). This will allow us to promptly agree on the terms.
