

BSAA IS THE ACADEMY OF GREAT POSSIBILITIES

My name is Monday Best Chibuike, I'm from Nigeria. I am happy that I chose to study at the Belarusian State Agricultural Academy, and the faculty of land management attracted me with the opportunity to become an excellent specialist in this field. The academy has faculties to everyone's liking: for those who love the land there are agrotechnological specialties, for lovers of exact sciences there are a number of economic specializations, for those who can not imagine their lives without animals there are biological profiles. There are engineering faculties, and faculties where legal experts and marketing specialists are educated. I sincerely recommend everyone to choose this university for its high quality of education and rich experience not only in the field of science, but also in formation a person as a self-sufficient personality. And here you will be offered everything you need as a student: doing sports, getting to know and communicating with interesting people.

All Bachelor's degree programs are 2400 \$ per year of study

The lowest tuition fee for studies on the Russian language courses:
10 months – 1700\$;
6 months – 1200\$;

Tuition fee for studies on Master's degree programme – 2400 \$ per year.

Tuition fee for studies on PhD programme 2700 \$ per year.

All students are accommodated at the dormitories

**35-50\$ per month
tentatively**
